RATES OF ADVERTISING. Newspaper proprietors generally, and especially of this ity, under the usages and regulations heretofore prevacing are called upon to perform more labor, without remi tion, than any other class of community The gratuitous publication of charity and religious advertisement, and comcommunications, tributes of respect, obituaries, &c. &c., which can only be inserted at a heavy cost to the proprietor, imposes upon them a burden so onerous, that they feel called apon, in self-defence, to check the abuse, by making such publications a charge, to some extent at least, upon the parties more numediately interested. In this they are but following the example of the press in other cities, impelled by a sense of its intrusic receiving a sense of its intrinsic propriety, and imperative duty to themselves. The subscribers have, therefore, united togeththemselves. The subscribers have, therefore, united together in a mutual agreement, upon the to lowing specified terms or the publication of these as well as every sort of regular business advertising.

ECONOMY AND COMFORT. DR. C. W. CHOZIER'S Camphor Wash Mixture, Patented July 11, 1854, and which received the Premium at the Nashville Fair in October last. Warranted to contain nothing in the least injurious to Clothes; also

THE under-lyned, having repeatedly been solicited to make consignments of the Patent Camphor Wash Mixture, has concluded to sell no more county rights in this State, but will in future have the Improved Camphor Wash Mixture put up and distributed throughout this State (ex-cept in the counties where the rights have been disposed at) and in the State of Alabama. And that he may be enabled more effectually to make this arrangement, he proposes to divide the patent for Tennessee and Alabama into 1,000 shares, one fourth to be retained, and the remainder -750 shares will be offered for sale. A person remitting tendedlars will have one share in the Patent, to run fourteen years from July 11, 1854, and will be at the same time investing also five dollars to be used in the purchase of the ingredients, advertising and the necessary expenditure of the means to prepare and distribute the Mixture for sale.— Consignments will be made to shareholders, (who may request it,) and to no other persone, to the amount of their remittance. And they will be allowed a commission of 33 per cent on their sales, and also their proportion of the Annual exhibit of sales will be made, and dividends of the FOREIGN WINES, LIQUORS, CIGARS & TOBACCO profits remitted to each shareholder. No debts will be conprofits remitted to each shareholder. No debta will be contracted, nor will the Company be responsible for any, as the business will be conducted upon the cash system.

Any of those who have purchased patents for counties in this State, can have the privilege of exchanging their rights for share at the prices they have paid. This exchange will be made at the cost of the Patentee.

It is desirable to have at least one or more active shareholders in each counts in the States named. Subscriptions for shares will be closed by the 1st September next. And consignments of the Mixture will be made very soon there-after. Certificates issued to shareholders, who will request BOOKS AND STATIONERY.

SIGHT PRESERVED! BLINDNESS PREVENTED!! J. H. SEMMONS, English Optician, into of the firm of the H. Semmons & Son, Manufacturer and Inventor of the newly invented and improved Spectacles, from the improved Spectacle Manufactory and Cornwall Optician establishment, East Bridge Truro, resectfully announces his arrival on a professional visit, with a splendid assortment of his newly invented and improved Spectacles, and may be consulted at his office on the Source voom over

at his office, on the Square, room over Berry's Book Store, Nashville, Tenn. These celebrated Spectacles are made of Brazilian Saud, and known under the name of Brazilian Pebbles, and constructed in secondance with the philosophy of nature, in the peculiar form of a concave-convex mirror, admirably adapted to the organ of sight, and can be used by the old and the young to pursue the most minute employment, ei-their by day or cardle light, with perfect case, and never cause that giddiness of the head or unpleasant sensation to the eyes that many experience from using the common kind, but tend to strengthen and improve the sight, as will be seen y the following testimonius from those using them, time hours from S.A. M. to 5 P. M.

#### TESTIMONIALS.

From J. H. McMahon, Esq., Fditor Memphis Bulletin. MEMPHIS, March 24th, 18:5. Ms. J. H. Susanore—Sir: The use I have made of the pair of Glames obtained from you, satisfies me of the utility and value of the form and material by which they are distinguished. Without magnifying the object beyond the rize apparent to the stural vision, they render it district and clear without fatigue to the eye. So far as my limited experience extends, I am very much

reased with them.

Very respectfully your ob't serv't,

J. H. McMAHON. From Hon. Geo. D. Prentice, Editor Louisville Journal. Undoubtedly they are the best Spectucies to the world. The continuous use of them for any number of hours. loes not fatigue the eyes in the least, and the vision of age s rendered by them in all respects like that of youth.

Mannis, March 14th, 1955.
Ma. J. H. Frinces-Dear Sic: I have carefully examined your Brazilian Pebble Spectacles, and most cheerfully add my testimony to their superiority over any other lenses I have yet seen.

Besides the chilosophy of this form, shape, &c., the remarkable transparency and hardness of the material ren der them peculiarly adopted to the purposes of assisting impaired vision, which, unlike other Spectacles, do so withnot fatiguing the eye by their use.

I can, my dear sin, cordially recommend your Brazilian

Pebbles to my friends as especially worthy of their confidence, and feel assured that a trial will in every case give satisfaction. I am, my dear air, truly yours, &c. A K. TAYLOR, M. D., Prof. Anat. Memphis Med College. I have examined and used myself Mr. J. H. Semmons Brazilian Pebble Spectacles, and fully concur in the opinion expressed above by frof. A. K. Taylor, as to their superior-ity, both in form and material, over the ordinary glasses.

Previous to obtaining them my manuscript duties NASHVILLE, July 27, 1855. were performed with much labor to the eye, and often with peln; but since I have used your Brezilian Pelblies I have experienced nothing of the kind, but feel perfectly rejucen-cted. Whether the relief proceed from the peculiar form of the glasses or the material, or both combined, I cannot say.

I prefer them to any glasses I have ever used, and take pleasure in recommending them to the public. Respectfully, EGBERT A. RAWORTH.
